JSON

Achievements

2020/6

aghatha

THE PROJECT WAS BUILT FOR THE BENEFIT OF Al Kafeel Academy IN THE al-Abbas's holy shrine. The project's mission is to determine the whereabouts of volunteers and ambulance wheels in the vicinity of the two holy shrines through a program in their phones and display their whereabouts in the control program in a web version using the Google MAP API to contribute to speeding up the process of aiding visitors.

*The duration of the program is only on the fortieth visit (local)

2021/5

Dhimma program

The project was established for the benefit of the General Secretariat of the al-Abbas's (p) Holy Shrine. The mission of the program is to deliver and receive paper mail for the sections of the Holy Shrine.

* The program was launched in the internal network of the Holy Shrine only.

2021/12

employee management system

The project was established for the benefit of the General Secretariat of the al-Abbas's (p) Holy Shrine, it includes (vacations, variables, affiliate data, structures, mail follow-up system for the Holy Shrine (*paper mail), phone numbers)

* The program was launched in the internal network of the Holy Shrine only.

2021/3

Master Sheet

The project was established for the benefit of the College of Pharmacy, Al-Ameed University. The mission of the project is to manage students' grades according to university laws

*The project was built using Excel (VBA)
